

XXIII Congress • July 12-16, 2021

International Society of the Rorschach
and Projective Methods (ISR)

FIRST ANNOUNCEMENT

JOIN THE CENTENARY CONGRESS OF THE INTERNATIONAL SOCIETY OF THE RORSCHACH AND PROJECTIVE METHODS (ISR) IN GENEVA!

The Rorschach test™ was first published in 1921 with Hermann Rorschach's monograph *Psychodiagnostik* and 100 years later is still one of the most used tests in the world. The ISR will celebrate one century of the development, controversies, debates and practices of the test with very special events: exhibitions, scientific debates, video demonstrations, cultural productions, interactive sessions and other performances.

The Congress is open to professionals from all disciplines who have an interest in Rorschach, including psychologists, psychiatrists, anthropologists, neuroscientists, philosophers, historians, and artists.

Join us not only to celebrate this momentous occasion looking back on the history of the Rorschach, but also to think about the next 100 years of the Rorschach, projective methods, and psychological assessment. Presenters are welcome who use different systems of administering, scoring, and interpreting the Rorschach, and presentations are strongly encouraged that address the future of the Rorschach.

FIRST ANNOUNCEMENT
